Explores

Living in Poverty: Who are they among us?

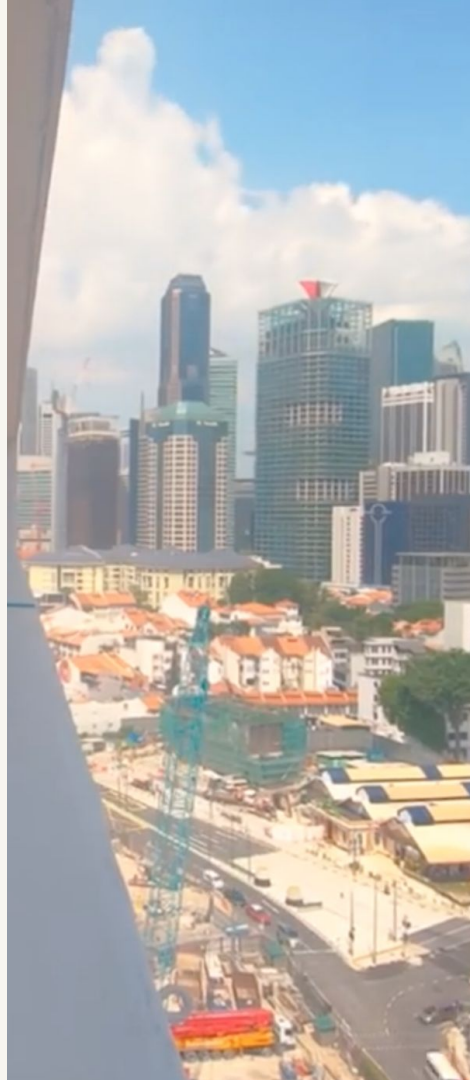

In 2020, Singapore was ranked

4th

most **EXPENSIVE** city

to live in

Meanwhile,

**1 in 10
Singaporeans**

are living in

POVERTY

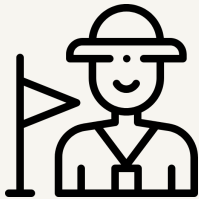

Overview

Singapore is the **2nd most income unequal country in Asia** with over 105,000 families living in poverty.

This journey is specially designed for potential changemakers to walk in the shoes of someone our society labels as **“living in poverty”**.

In 2 hours, we **experience a snippet of their lives** - from their neighbours, daily activities and growing up in the neighbourhood - and **generate ideas** on how we can tackle this issue.

Learn

Learn the importance of social networks in uplifting the poor

Awareness of economic poverty in Singapore

Changed mindsets and debunked stereotypes about poverty

Knowing how entrepreneurship can empower the poor
